

Camera Ready Instructions

SIN'17 proceedings, under assigned ISBN number 978-1-4503-5303-8, to be published in ACM International Conference Proceeding Series (ICPS). The **Camera Ready Instructions for the author(s) are as follows:**

1. Papers should include the title, authors' names, affiliation, telephone and email of the author(s). Page limit for different paper categories are:
 - The maximum length for the **regular papers** (research/student/industrial) is 8 pages. If needed, two additional pages are allowed for regular papers. However, extra page charges (\$100 per page) apply.
 - The maximum page limit for **short papers** is 6 pages.
 - Papers under **fast abstract/position paper/tool demo** categories are allowed maximum 4 pages.
2. ACM has developed a **new 2017 ACM Master Article Template**. You can download it from the webpage <http://www.acm.org/publications/article-templates/proceedings-template.html/>. You have to use the “**sigconf**” format. Please strictly follow the guidelines of sigconf.pdf while creating camera ready PDF.
3. You must ensure that have Type 1 fonts (scalable), not Type 3 (bit-mapped) while generating camera ready copy from docx or latex. All fonts must be embedded within the PDF file. In order to help you, ACM has created documentation on how to embed your fonts (<http://www.acm.org/binaries/content/assets/publications/word-to-pdf-instructions-.txt>).
4. ACM will soon start collecting online copyright forms from the first author of all accepted papers. After completing the rights management form, author(s) will be emailed the correct ACM rights statement and bibliographic strip with a copy of the form. You have to insert permission blocks on the bottom of the first page left column.
5. Please use 2012 Computing Classification System (CCS), and you can generate indexing terms manually through Author Support Tool (<http://dl.acm.org/ccs.cfm>), please start with "**Security and Privacy**" followed by areas based on your article's focus. You have to incorporate CCS indexing terms after abstract in camera ready copy.
6. Authors **must** supply a caption to the image. The caption length should be no more than 512 characters.

You need to place both source files and camera ready PDF in a zipped folder and send it to **sin2k17@gmail.com** on or before **September 05, 2017 (firm deadline)**. During submission, please mention the **type of paper** (regular/short/fast abstract/position/tool demo) and **paper ID** in the **subject line of the email**.

Please note that ACM rights management emails are sent from an automated system, there is a chance that emails sent will wind up in SPAM folders. Please make sure that your email SPAM settings are allowing emails from rightsreview@acm.org.
